

QUALITY POLICY

Customers and stakeholders satisfaction is a strategic objective of Vimi Fasteners, which is committed to achieve it by:

- improving product Quality, providing timely responses to customer requests, and continuously enhancing the company's competitiveness,
- enhancing the effectiveness and efficiency of value chain processes, including suppliers, to ensure quality, economic, and growth objectives, both organic and through external expansion, as part of an organization striving for excellence
- continuous innovation in production processes through the adoption of new technologies and the most advanced production organizational philosophies
- promotion of a Quality culture that places individuals at the center and is based on people's involvement and skills development, improvement of the workplace, and respect for the environment and society, in line with the Green Deal policies approved by the European Commission, as demonstrated by the non-financial reporting of the Sustainability Report.
